INSTRUCTIONS FOR LAYING.

BOULINIKON can be laid down loose, or a few brads may be used in the seams to keep the Cloth well to the floor. If necessary to use BOULINIKON CEMENT, it should be put on the back of the Cloth for about two inches from the edge, and then lay it at once on the floor.

On stone or brick floors the Cloth may be fastened down with Cement, or placed down loose. Tape for joints is not required.

INSTRUCTIONS FOR CLEANSING.

BOULINIKON FLOOR CLOTH, to be cleansed, should first be swept thoroughly clean, the surface then carefully washed with a flannel and best white or primrose soap, well lathered (soft soap and soda should be avoided); it should then immediately be wiped thoroughly dry with a soft linen cloth. Floor Cloth is rendered more durable by occasionally rubbing over the surface with an oily rag.
